

APPENDIX A

SOURCES FOR ADDITIONAL ADA 95 INFORMATION

This appendix contains detailed contact information that PEOs, PMs, their staff and/or contractors can use. These sources can provide many different kinds of information on Ada 95 and related issues.

ORGANIZATIONS TO CONTACT

This section lists groups that are set up to provide information on Ada 95. *Information in these lists was accurate as of the printing date. If the contact information appears to be incorrect or out of date, the Ada Information Clearinghouse will usually have updated contact information.*

Government

Ada Information Clearinghouse

The AdaIC publishes information on the Ada community's events, working groups, research publications and concerns. The Clearinghouse provides its services free of charge to the governmental, academic and commercial software communities.

AdaIC
PO Box 1866
Falls Church, VA 22041
703/681-2466 Voice
1-800-Ada IC-11
703/681-2869
adainfo@sw-eng.falls-church.va.us

Ada Joint Program Office

The Ada Joint Program Office (AJPO) facilitates the implementation of the DOD's Software Initiative (Ada) throughout the services, and maintains the integrity of the language.

AJPO

User Groups

ACM SIGAda ACM SIGAda is the Special Interest Group (SIG) on Ada, a part of the Association for Computing Machinery (ACM). SIGAda is a powerful resource for the software community's ongoing understanding of the scientific, technical and organizational aspects of the Ada language's use, standardization, environments and implementations.

Ada Europe Ada-Europe gathers users, educators and providers of products and services related to Ada. It has operated since the early '80s as an effective focal point of European interest on Ada that matches and balances SIGAda, the corresponding American Ada users association. Ada-Europe operates as an international Scientific Association under Belgian law. It serves as a federation of the national Ada organizations set up in different European countries.

MEETINGS

This section lists meetings that are either specifically about Ada or contain topics of interest to Ada developers and managers. Additionally, the section lists organizations that have regular meetings in their local community. *Information in these lists was accurate as of the printing date. If the contact information appears to be incorrect or out of date, the Ada Information Clearinghouse will usually have updated contact information.*

Ada Conferences

- TRI-Ada**
- The TRI-Ada Conference and Exposition is the largest annual Ada event, drawing several thousand attendees and more than 100,000 square feet of exhibits. TRI-Ada is an international conference, and provides unique opportunity to learn about Ada, visit and network with Ada practitioners and experts, and evaluate a comprehensive collection of Ada products and services. TRI-Ada is held in the fall of each year at major conference facilities throughout the United States.

ELECTRONIC SOURCES OF INFORMATION

This section lists some of the various sources of electronic information that is available through the Internet and via bulletin boards. *Information in these lists was accurate as of the printing date. If the contact information appears to be incorrect or out of date, the Ada Information Clearinghouse will usually have updated contact information.*

Electronic Mailing Lists

Info-Ada Mailing List The Info-Ada Mailing List is an Internet interest group for the dissemination of information about Ada and activities within the Ada community. Articles on the mailing list appear as digests from articles posted on the comp.lang.ada USENET newsgroup.

To subscribe to Info-Ada, send an e-mail message to:

listserv@vm1.nodak.edu

with a null subject and the body containing the following lines:

SUBSCRIBE info-ada [your full name]

Here your full name is your name and not your net address.

Team-Ada Mailing List

Team Ada is a highly informal organization dedicated to telling the world about the advantages of the Ada programming language.

To subscribe to the list send a message to:

mailserv@acm.org

with a null subject and the body containing the following lines:

SUBSCRIBE team-ada [mail address]
END

Ada Bindings Working Group (ABWG) Mailing List

The Ada Bindings Working Group (ABWG), a working group under SIGAda, is interested in pursuing Ada bindings to "standards". ABWG's mission is: To identify and disseminate issues and recommendations for the creation of Ada bindings to software systems. Goals include the standardization and publication of package specifications (with commercial vendors supplying bodies to those specifications). There are currently five electronic mail forums for the ABWG including:

ABWG@sw-eng.falls-church.va.us

General technical discussions on Ada bindings

The above list also receives all announcements of ABWG meetings. Subgroups address special interest areas within ABWG; these include:

ABWG-Common-GUI@sw-eng.falls-church.va.us

Discussions about Ada bindings to common graphic user interfaces.

ABWG-MS-Windows@sw-eng.falls-church.va.us

Discussions about Ada bindings to Microsoft Windows.

ABWG-OMG@sw-eng.falls-church.va.us	Discussions about Ada bindings to the Object Management Group's interfaces, including OMA.
ABWG-CMW@sw-eng.falls-church.va.us	Discussions about Ada bindings to the Compartmental Mode Workstation (CMW).

To have your e-mail address added to any or all of these forums, send e-mail to:

ABWG-Request@sw-eng.falls-church.va.us

with the following information:

Name
 Company address (on as many lines as necessary)
 Phone Number
 Fax Number
 E-mail address(es)
 Subgroup interest(s), if any
 Mailing address, if different from Company address

Ada Run Time Environment Working Group (ARTEWG) Mailing List

The ARTEWG, an ACM/SIGAda working group, is for the discussion of issues relating to the Ada run-time environment. There are several mailing lists for this working group.

To send a message to one of the following groups, type the corresponding mail forwarding list name, including also @sw-eng.falls-church.va.us if you are mailing from another host machine. The contents of the lists may be seen by looking in the <artsup> directory. Add the extension ".list", except for mrtei and fdm add ".wg", e.g., principals.list, to view the file.

MAIL FORWARDING LIST NAME	DESCRIPTION
principals	ARTEWG Principal Members
subgroup-1 Subgroup	ARTEWG Implementation Dependencies
subgroup-2	ARTEWG Application Subgroup
subgroup-3	ARTEWG Interface Subgroup
mrtei	Model Real-time Environment Interfaces
fdm	Fault-tolerant Distributed and Multiprogramming
artewg-general	ARTEWG General Members

Reuse Working Group (ReuseWG) Mailing List

The Reuse Working Group is an ACM SIG/Ada working group established to provide a forum dissemination of information and discussion on software reuse.

To subscribe to the mailing list, send the following message, with no subject, to listserv@wunet.wustl.edu:

SUBSCRIBE reusewg

Public Ada Library (PAL) Mailing List

Users of the Public Ada Library are supported by three electronic distribution lists. These are PAL-ANNOUNCE, which is an announcement list for PAL users; WUARCHIVE-ANNOUNCE, which is an announcement list for users of WUARCHIVE; and ADA-TRAIN, which is a discussion list for those involved in Ada education.

To subscribe to any of these lists, send a message to: listserv@wunet.wustl.edu. Leave the subject line blank and place the following line into the body of the message:

SUBSCRIBE *list name*

where *list name* is PAL-ANNOUNCE, WUARCHIVE-ANNOUNCE, or ADA-TRAIN.

GNU/NYU Ada Translator (GNAT) Mailing List

GNAT is an Ada 95 front end for the GCC compiler. The AJPO has funded the development of GNAT for the Sun Sparc workstation under Sun-OS and the IBM PC under OS/2. GNAT has also been ported to several other platforms.

To be placed on the external mailing list, send a message to gmat-request@cs.nyu.edu. Messages to the general GNAT development team should be sent to gmatchat@cs.nyu.edu. Problem reports with the current version of GNAT should be sent to gmat-report@cs.nyu.edu.

USENET Newsgroups

- | | |
|--------------------|---|
| comp.lang.ada | <p>The comp.lang.ada newsgroup on USENET fosters discussions ranging from the finer points of Ada programming to debates over policy.</p> <p>Contact your system administrator for help in accessing USENET newsgroups.</p> |
| comp.sw.components | <p>The comp.sw.components newsgroup on USENET features discussion on software component technology and reuse.</p> <p>Contact your system administrator for help in accessing USENET newsgroups.</p> |
| comp.object | <p>The comp.object USENET newsgroup features discussion on object-oriented programming and languages.</p> <p>Contact your system administrator for help in accessing USENET newsgroups.</p> |
| comp.sw-eng | <p>The comp.software-eng USENET newsgroup features discussion on software engineering and related topics.</p> <p>Contact your system administrator for help in accessing USENET newsgroups.</p> |
| comp.edu | <p>The comp.edu USENET newsgroup features discussion on computer science education.</p> <p>Contact your system administrator for help in accessing USENET newsgroups.</p> |
| news.answers | <p>The news.answers USENET newsgroup is a repository for periodic USENET articles.</p> <p>Contact your system administrator for help in accessing USENET newsgroups.</p> |

Internet File Servers

AdaIC Server [sw-eng.falls-church.va.us] The AdaIC server is an FTP site for the Ada Information Clearinghouse. Available files cover topics such as Ada news and current events; Ada usage; resources for Ada education and training; software, tools and interfaces; Ada policies; historical information; standards; and available bindings. The AdaIC Bulletin Board also offers users the option of searching on-line databases to determine what validated compilers and software development tools are available.

The AdaIC server can be reached via anonymous FTP at sw-eng.falls-church.va.us. Contact your local system administrator for details.

Public Ada Library (PAL) [wuarchive.wustl.edu] The Public Ada Library is a free repository of more than 100 megabytes of Ada information. The PAL contains programs, components, tools, general information, and educational materials on Ada.

The PAL can be reached via anonymous FTP over the Internet at address wuarchive.wustl.edu. Contact your local system administrator for details.

Public Ada Library — US Mirror [ftp.cdrom.com] The PAL US Mirror is an additional site for accessing the contents of the Public Ada Library.

The US Mirror site for the PAL can be reached via anonymous FTP at ftp.cdrom.com. Contact your local system administrator for details.

Public Ada Library — European Mirror [ftp.cnam.fr] The European Mirror for PAL is an additional site for accessing the contents of the PAL from Europe.

The European Mirror site for the PAL can be reached via anonymous FTP at ftp.cnam.fr. Contact your local system administrator for details.

Home of the Brave Ada Programmers [http://lglwww.epfl.ch/Ada/]

The Home of the Brave Ada Programmers is a WWW hypertext information server to help disseminate information about the Ada programming language. The Home of the Brave Ada Programmers is managed at the Software Engineering Lab of the Swiss Federal Institute of Technology in Lausanne, Switzerland.

The URL of the SWISS Ada Server is:

<http://lglwww.epfl.ch/Ada/>

WWW browsers, such as mosaic, are available for most major platforms. Contact your local system administrator for details.

SIGAda WWW Home Page [http://www.acm.org/] The SIGAda World Wide Web Home Page is a hypertext information server to help disseminate information about the Ada programming language and Ada-related events. The SIGAda WWW Home Page is located on the ACM WWW server and can be reached at URL.

<http://www.acm.org/>

WWW browsers, such as mosaic, are available for most major platforms. Contact your local system administrator for details.

Dial-up Bulletin Boards

AdaIC Bulletin Board The AdaIC Bulletin Board is a 24-hour dial-up service that offers a wide range of Ada information in electronic form. Available files cover topics such as Ada news and current events; Ada usage; resources for Ada education and training; software, tools and interfaces; Ada policies; historical information; standards; and available bindings. The AdaIC Bulletin Board also offers users the option of searching on-line databases to determine what validated compilers and software development tools are available.

Phone: (703) 681-2845
 Baud Rate: Up to 9,600
 Data Bits: 7
 Stop Bits: 1
 Parity: Even
 Login: guest
 password: Ada4sw_eng

STSC Bulletin Board The Software Technology Support Center (STSC) was established to assist US DOD software organizations to identify, evaluate and adopt technologies that will improve the quality of their software products, their efficiency in producing them, and their ability to accurately predict the cost and schedule of their delivery. STSC maintains a bulletin board of ASCII articles published in Crosstalk, The Journal of Defense Software Engineering.

The STSC bulletin board can be reached by modem at (801) 774-6509, or by anonymous FTP at stscbbs.hill.af.mil (137.241.33.1) or through WWW.

Compuserve There is an Ada discussion group on the Compuserve Information Service. Information on this group may be obtained from the Software Development Forum.

AdaIC Compuserve Address: 70312.3303@compuserve.com

BOOKS AND MAGAZINES

This section lists magazines and books on Ada and Ada topics.

Books

Author:	Skansholm, Jan
Title:	Ada from the Beginning, 2nd Edition
Publisher:	Addison-Wesley
Author:	Naiditch
Title:	Rendezvous with Ada 95, 2nd Edition
Publisher:	John Wiley & Sons, Inc.
ISBN:	0-471-01276
Author:	Barnes, John
Title:	Programming in Ada: Plus an Overview of Ada 95
Publisher:	Addison-Wesley
ISBN:	0-201-62407-9

The Ada Information Clearinghouse maintains a comprehensive list of all books on Ada. See the AdaIC entry in the first section.

Magazines

The Ada Information Clearinghouse maintains a comprehensive list of all magazines on Ada and magazines that occasionally publish articles on Ada. See the [AdaIC](#) entry in the first section.
